Cremanova is a sound pack with 48 new presets for the Waldorf Crema. Welcome to a serious bank with very deep useful sounds for synthesists.

All sounds in this library were programmed by Matthias Sauer. From the very first moment, he was fascinated by this compact synthesizer and knew he had to create and release his own sound pack.

The library focuses primarily on rich, lush, evolving pads, complemented by additional arpeggio layers. Cremanova makes excellent musical use of the unique sonic capabilities of the Waldorf Streichfett and its wavetables.

Cremanova is particularly well suited for ambient and other styles of atmospheric electronic music. The warmth and density has rarely been experienced from the Waldorf Crema.

Content

- Set of 48 sound presets for the Waldorf Crema
- Pads, Ensembles, Layer, Arpeggios, Keys, Leads and more
- Styles: Ambient, Cinematic, Lounge, Chillout, Electronic and others.

How to install
You get the product by mail / download link. The ZIP archive contains one folder („Waldorf_Crema_Cremanova“) with 48 new presets in SysEx format.

It’s easy to install the sound pack: Install and launch the free librarian software Waldorf Chutney (https://waldorfmusic.com/de/chutney-librarian/) and go to „Import Presets into Library“.

Please select the file „*AppSound_WCrema_Cremanova.syx*“. Now you can use UPLOAD to send the presets to your Waldorf Crema (connected with your computer). The new sounds are starting with number 200. Please feel free to upload the new sounds to any free slot of your Waldorf Crema.

Enjoy **CREMANOVA**
for the Waldorf CREMA ENSEMBLE.
