**Cosmic 24** is a sound pack with 48 new presets for the Waldorf Microwave 1. Welcome to a serious bank with very deep useful sounds for synthesists.

All presets have been programmed by Matthias Sauer. He used a Waldorf Microwave in the 90s. This hardware version was not very user-friendly. People liked to use the rack synthesizer for basses and sequences in the techno sector. Everything changed with the plugin version released in 2024. Matthias was impressed and decided to publish his first sound pack for the Waldorf Microwave 1. Deep and warm pads and collages with LFO synchronization for ambient and cosmic soundtracks.

**Cosmic 24** is a unique soundbank with pads, drones, keys leads and much more. The warmth and density has rarely been experienced from the Waldorf Microwave.

## How to install

You get the product by mail / download link. The ZIP archive contains one folder („Waldorf\_Microwave\_Cosmic24“) with 48 new presets in MW format.
