

ARP FLOW VOL 01 is a sound pack for the hardware synth ASM Hydrasynth (all models). All 64 patches are featuring the powerful arpeggiator including Ratcheting. The focus is mainly on solid „virtual analog“ sounds for a wide range of musical styles. You will notice a unified macro assignment for all presets. This allows you a good realtime controlling.

All 64 sounds are carefully designed and take advantage of the complete synthesis engine and the effects of the ASM Hydrasynth (Keyboard, Desktop, Explorer, Deluxe). It's a good starting point for creating your own musical phrases and sequences. Let yourself be inspired!
