

# APP · SOUND

**PRO STEPS** is a collection of 80 new patches for the synthesizer DSI Pro 2.

All new sounds use the arpeggiator or step sequencer of the Pro2. The focus is on the paraphonic mode. In combination with the arp and sequencer you get „wave sequences“. This feature do we call „PWS“ (Paraphonic Wave Sequencing). PRO STEPS reveals the hybrid character of the DSI Pro2, a mixture of different analog and digital sounds. This set is a useful starting point for exploring the arpeggiator as well as the powerful step sequencer.

## CONTENT

**80 patches:** Bank User 3 (see list below), MIDI SysEx file,

**Styles:** Electronica, Dance, Pop, Retro

## HOW TO INSTALL

You get the product by mail / download link. The ZIP archive contains the folder „soundbank“ where you find all the sound data as MIDI SysEx file.

Please use a simple shareware for transmitting the sounds from your computer to the synthesizer (connected with a MIDI or USB cable). Download and install one of these programs: *MIDI-OX* for Win ([www.midiox.com](http://www.midiox.com)) or *SysExLibrarian* for Mac ([www.snoize.com/SysExLibrarian](http://www.snoize.com/SysExLibrarian)).

Your Pro2 is ready to receive MIDI SysEx message. Check the Global menu: (9) MIDI Sysex Enable = On, (10) MIDI Sysex Cable = USB or MIDI Port. Now load the file „pro\_steps) into your SysEx utility program and send the soundbank to your Pro 2. After transmitting you find the new sounds here: Bank User 3! Please save your own sounds before.

If you have the PRO2 Editor by SoundTower ([www.soundtower.com/pro2](http://www.soundtower.com/pro2)) you can easily load the file „Pro2\_ProSteps->BankU3.p\_2b“ into the editor.

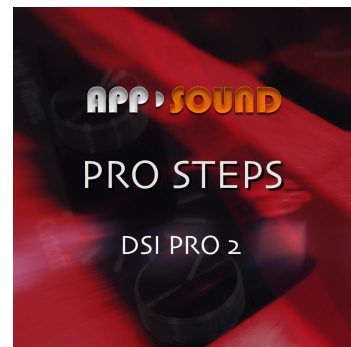

Please visit [www.davesmithinstruments.com](http://www.davesmithinstruments.com) for more technical infos.

Enjoy **PRO STEPS** for DSI Pro2!
