**Hypnotic Steps** is a pack for the hardware synth Korg Minilogue XD. The 100 programs are very well suited for all kinds of spherical minimalistic music. All programs have been designed to use the internal sequencer. The sequencer patterns are based on three basic speeds: 60, 90 and 120 bpm. Of course, they can be easily varied on the Korg Minilogue XD.

All 100 sounds are carefully designed and take advantage of the complete synthesis engine (no additional waveforms are used) and the effects of the Minilogue XD. It's a good starting point for creating your own musical phrases and sequences. Let yourself be inspired!

# APP · SOUND

**Spacecraft** is a sound set for the hardware synth Korg Minilogue XD. The 70 programs are very well suited for all kinds of spherical electronic and film music. The richness of the pads and collages is remarkable. The sounds are well playable on the keyboard and can be used musically more often universally.

All 70 sounds are carefully designed and take advantage of the complete synthesis engine (no additional waveforms are used) and the effects of the Korg Minilogue XD. It's a good starting point for creating your own pads, leads or musical arpeggios and phrases. You'll be impressed!
