

VIRTUAL VCO is a sound pack for the hardware synthesizer Korg opsix and the plugin Korg opsix native. Included are 40 *Programs* with a focus on arpeggiator sounds, pads and further virtual analog synth sounds.

This sound library offers universally applicable patches in the style of virtual-analog synthesizers. It shows that this Altered FM synthesizer can also deliver very fat, voluminous sounds with first-class reverb effects. The Programs of VIRTUAL VCO are well playable on the keyboard and can be used musically more often universally. It's a good starting point for creating your own new pads, poly synths and arpeggio phrases.

CONTENT

- 40 Programs for the Korg opsix and Korg opsix native available as single programs files and library for the Korg opsix Librarian
- 10 MIDI phrases as a bonus
- Categories: Arpeggiator, Pad, Synth
- Styles: Electronic, Pop, Retro, Chillout and similar genres.

HOW TO INSTALL

You get this product by mail / download link. The ZIP archive contains one folder („KorgOP6_VirtualVCO“): the folder with 40 single programs, a library file „AppSound_VirtualVCO.op6lib for the Korg opsix Librarian (hardware synthesizer) and a folder „MIDI“ with 10 phrases.

It's easy to install the sound pack for the **Korg opsix native**: Copy the folder „Virtual VCO“ to this location:

[Mac] Documents/KORG/opsix native/Presets

[Windows] C:\Program Files\Common Files\KORG\opsix native\Presets

After launching the Korg opsix native you see the new sound pack in the BANKS columns (see the screen below).

Please use the Korg opsix Sound Librarian for importing and transferring the new programs to your **Korg opsix hardware synthesizer**. You can use the library file for loading all 40 programs and the factory content at once. Please backup your own sounds before. More infos: <https://support.korguser.net/hc/en-us/articles/5431707690905>

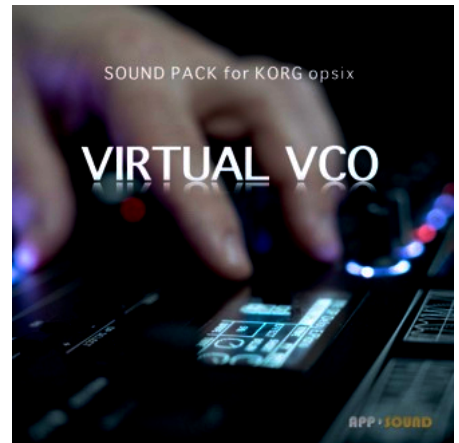

Used for creating this sound pack: Korg opsix 2.0.1, Korg opsix native V1.0.4, please use the latest OS version: <https://www.korg.com/us/support/download/product/0/874/>

Enjoy **VIRTUAL VCO**
for the Korg opsix (native)!
