

APP SOUND

AMBIENT NATURE is a sound pack for the hardware synthesizer Korg Wavestate 2.0 and the Korg Wavestate native. Included are *64 Performances* (Set List), *48 Programs* and *72 Multisamples* with a focus on soundscapes and atmospheric pads. You need the freeware by Korg „Sample Builder“ and „wavestate Sound Librarian“ for installing the new content for the hardware synth.

The focus of this library (produced by Matthias Sauer) is water and other natural sounds and some granulized effects as well. They were recorded in Europe, especially in Italy and Germany. These ambiences harmonize very well with the pads and other samples of the Korg Wavestate. They create a lot of atmosphere. Overall, the result is a very organic soundscape. AMBIENT NATURE is ideal for soundscapes with a mix of natural and synthetic sound sources.

The presets of AMBIENT NATURE are well playable on the keyboard and can be used musically more often universally. Most of the Performances are based on three or four Layers. With MOD KNOBS 1-4 you can change the volume of the four Layers („mixing concept“).

CONTENT

- Set List of 64 Performances for the Korg Wavestate, available as Set List file for the wavestate Editor Librarian (Freeware)
- 72 Samples (66 MB) of Water, Sea, Rain and Granular FX.
- 48 programs
- Categories: Soundscapes, Pads, Arpeggiator
- Styles: Ambient, Chill out, New Age, Meditation, Pop, Retro, Cinematic.

HOW TO INSTALL

You get this product by mail / download link. The ZIP archive contains one folder („AppSound_Korg_WS_Ambient Nature“): Set List „Ambient Nature.wssetlist“ (64 performances), folder „Samples“ (72 multisample) and the folder „Programs“ (48 programs).

It's easy to install the sound pack: Connect the Korg Wavestate and your computer via USB cable. First launch the Sample Builder software and load the bank file „Ambient Nature Bank.korgbank“ and send it to your Wavestate. You find this Samples Bank in the folder „Samples“.

Now launch the the wavestate Editor Librarian. Import the file „Ambient Nature.wssetlist“. Go to UTILITY - System Setup on your Korg Wavestate and select the Set List: Ambient Nature. Now you are able to play all the new 64 performances (Bank A-D).

Using the Plugin version of Korg Wavestate: Select the Librarian (!), go to settings and use the „import“ function. After importing the set list file please go to Filters and select „Set Lists“. **IMPORTANT:** Please use the compiled sample content „Ambient Nature.korgcompiledbank“ which you find in the folder „Samples“.

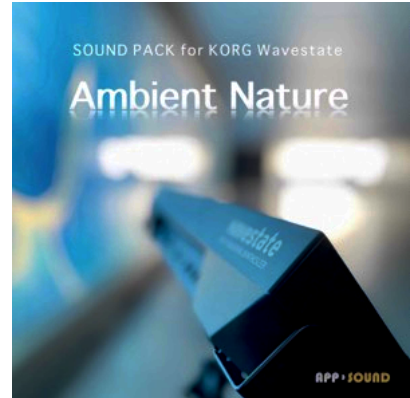

Used for creating this sound pack: Korg Wavestate 2.1.0, wavestate Editor Librarian V 1.1.1 and Sample Builder V1.1.0 <https://www.korg.com/us/support/download/product/0/840/>

Enjoy **AMBIENT NATURE** for the Korg Wavestate!
