

APP SOUND

NEW LEGACY is a sound pack for the hardware synthesizer Korg Wavestate 2.0. Included are *64 Performances* (Set List), *100 Programs* and *46 Multisamples* with a focus on soundscapes, pads and arpeggiator sounds. You need the freeware by Korg „Sample Builder“ and „wavestate Sound Librarian“ for installing the new content.

This sound collection is a joint venture of Peter Krischker (Easy Sounds, Yamaha) and Matthias Sauer, who will celebrate their 30th anniversary in 2022. You get a selection of the best multisamples from three great sound libraries („Analog Xperience“, „Evolving Soundscapes“ and Magic Vox“) produced by Peter Krischker for Yamaha synthesizers. Yes, there are samples from Minimoog, Jupiter-8, OB-X synthesizer as well as some unique formant shaping waveforms and granular and atmospheric effects.

The presets of NEW LAGACY are well playable on the keyboard and can be used musically more often universally. Most of the Performances are based on two or three Layers. Finally, the new sample content „*Legacy Synth*“ is a good starting point for creating your own new pads, poly synths and soundscapes.
