

# APP SOUND

**SELECTION TOP10** is a sound pack for the Korg Wavestate and the Korg Wavestate native plugin. Included are *64 Performances* (Set List) which are focussing different styles of music - Pop, Electronic, Chillout, Ambient, Techno, Film Music or LoFi.

After a total of ten sound packs for the Korg Wavestate synthesizer, it's time to select some of the most popular performances and create new sounds from them. This is exactly what the Selection Top10 library does. The original ten soundbanks were created between April 2020 and December 2022, during which time I also produced the album "Matt Sour: Wave Pirates" (available on streaming portals), which contains many of my sounds for the Korg Wavestate.

At the end of this document you will find a list of all ten soundbanks by App Sound. You can see the original sound and the corresponding new version. Some performances are almost unrecognizable, while other sounds have been tweaked a bit. User samples had to be replaced for the "New Legacy" and "Ambient Nature" sound packs, SELECTION TOP10 does not contain any additional samples.

For subscribers of the newsletter there is a bonus of 64 phrases (eight bars each) in WAV and MID formats.

I hope the "SELECTION TOP10" library (and the other sound packs) will bring you a lot of musical inspiration! Have fun discovering new sounds.
