

APP SOUND

WAVES OF FREEDOM is a sound pack for the Korg Wavestate and the Korg Wavestate native plugin. Included are *64 Performances* (Set List) which are demonstrating the real unique sound of this digital synthesizer.

Unlike the previous packs of App Sound, you will find some basses based on Wave Sequencing that harmonize well with other synths and pads. Of course, the layered sounds typical of Korg Wavestate are not missing. Some soundscapes also contain rhythmic elements of drums and percussion.

The presets of Waves of Freedom are well playable on the keyboard and can be controlled via wheels and knobs. Most of the Performances are based on two or three Layers. All in all it is a colorful mixture of electronic and cinematic music. Enjoy it!
